Argentina	Not licensed	<p>LMIE is an admitted reinsurer in Argentina</p> <p>The most important current limits to be respected are noted below.</p> <ul style="list-style-type: none"> ▪ From 1 July 2017 insurers may place 50% of annual ceded premiums with admitted reinsurers (the former limit was 10%), with further increases to 60% from 1 July 2018 and 75% from 1 July 2019. ▪ Insurers can place facultatively the entirety of any individual risk of USD 35mn or more (formerly only the excess above USD 50mn) with admitted reinsurers, as they can all catastrophe contracts with the same minimum sum insured. ▪ Insurers which accept up to 10% of their direct premiums as reinsurance must place their retrocessions with local reinsurers. ▪ The SSN will investigate any retention per risk in excess of 15% and per accumulation of risks in excess of 25% of local reinsurers' capital. ▪ Local reinsurers may transfer a maximum of 75% (formerly 40%) of their annual premiums to intra-group companies based overseas. <p>While no minimum retention of premiums is established by law for local insurers or reinsurers, the SSN has made it clear on various occasions to individual players that it will not allow 100% fronting, since this would be to act as an intermediary rather than a risk carrier. In practice it is understood retentions made on some risks may be of 1% or even less. Retentions for insurers are covered in <i>Article 32</i> of both <i>Law No 20.091</i> and the RGAA, which states that the SSN will review any retention in excess of 15% of capital and free reserves, or 40% of the surplus in the Statement of Cover for</p>

		<p>Commitments Due and Settled Claims Payable which companies must submit quarterly to the SSN.</p> <p>A withholding tax of 3.5% (equivalent to corporation tax of 35% on 10% presumptive income in accordance with the <i>Income Tax Law</i>) applies to reinsurance placed abroad. If a double taxation agreement exists with Argentina, a reduced withholding tax or no withholding tax may apply. VAT is payable on outwards reinsurance by the ceding company to the tax authorities and recovered from them the following month.</p> <p>No transfer of funds abroad is possible without the permission of the Central Bank, though formal approval is no longer required of the SSN to obtain that. There are not generally any delays sufficient to cause problems with reinsurers over cashflow and coverage.</p> <p>All treaty and facultative reinsurance contracts with Argentinian insurers are governed by Argentinian law and jurisdiction</p>

Guatemala		Updated 18/12/2020 LMIE SE is registered as a foreign reinsurer in Guatemala. This registration enables LMIE SE underwriters to write reinsurance business on a cross-border basis only.
Guernsey	Guernsey recognises foreign insurers either by description (i.e. insurers licensed in the European Union, Isle of man and Jersey) or via notification. Those recognised insurers can carry on insurance business via licensed insurance intermediaries. Insurance intermediaries must declare the recognised insurers they deal with to the Guernsey Financial Services Commission annually.	

<p>Honduras</p>		<p>LMIE is a registered foreign reinsurer in Honduras.</p> <p>This registration enables underwriters to write reinsurance business on a cross-border basis only.</p> <p>Article 72 requires all automatic reinsurance contracts plus renewals, modifications and cancellations thereof to be advised to the CNBS.</p> <p>Article 75 states that insurers may freely cede risks to insurers and reinsurers within Honduras and overseas; Article 77, however, says that the CNBS will maintain a register of foreign reinsurers and reinsurance brokers, and continues to say that insurers are obliged to place business only with those registered reinsurers or brokers. The use of unregistered reinsurers or brokers is permitted only if such reinsurer or broker subsequently complies with the registration requirements within a timescale to be determined by the CNBS.</p> <p>For the calculation of the solvency margin CNBS Circular 047/2003, Resolution 946/05-08-2003 permits insurers to take credit for reinsurance.</p> <p>CNBS Circular 016/99 required reinsurers to have an international classification of BBB or better. This continues to be the case.</p> <p>The CNBS states that there are no special cases; if an insurer is unable to find reinsurance with a registered or acceptable reinsurer the risk in question must pass to another insurer which can.</p>

<p>India</p>		<p>LMIE is a cross-border reinsurer in India. The underwriting must take place outside of the territory. "Cross Border Reinsurers" means those reinsurers who do not have any physical presence in India and do reinsurance business with Indian insurance companies.</p> <p>This is subject to the following:</p> <ul style="list-style-type: none"> • A compulsory reinsurance cession is in place (see the Insurance Act 1938 s. 101A and the (General Insurance - Reinsurance) Regulations (GIRR) para 3). Indian insurers must place a prescribed percentage of each policy with the "Indian reinsurer", the General Insurance Corporation (GIC). This is currently 5% (as of 1st April 2016). Please note that this cession applies to all classes, with the exception of terrorism business and government sponsored health insurance schemes. • With effect from 16 January 2017, all Indian reinsurance business is subject to "Order of Preference" Regulations which require Indian insurers to cede business to reinsurers according to a prescribed order of preference. <p>Step 1 – Seek "best terms" from local market</p> <p>For all facultative and treaty cessions, all Indian insurers must first obtain 'best terms' from:</p> <ul style="list-style-type: none"> • Indian reinsurer(s) with a "minimum credit rating which is having at least good financial security characteristics from any of the internationally renowned credit rating agencies for the previous three years" (e.g. GIC Re); and
---------------------	--	--

·also from at least three entities which have been granted a certificate of registration under Regulation 4(a) of the regulations (Lloyd's India is included in this category).

Step 2 – Offer “best terms” in accordance with the “order of preference”

The Indian insurer shall then offer the best terms for participation (as received under Step 1) in the following order of preference;

- a. To Indian re-insurer(s) having a minimum credit rating as given above, and thereafter to those granted certificate of registration under Regulation 4 (a).
- b. To other Indian re-insurer(s) or to those granted certificate of registration as per regulation 4 (b) of the Regulations (see definition of 4(a) and (b) below).
- c. To the branch offices of foreign reinsurers set up in the Special Economic Zone, only after having offered to all entities in steps (a) and (b) above.
- d. The balance, if any, may thereafter be offered to Indian Insurers and overseas reinsurers.

Regulations 4 (a) and 4 (b)

Foreign reinsurers seeking to establish a branch office in India are able to apply for a certificate of registration from IRDAI under two possible categories:

·A certificate of registration obtained under the Regulation 4 (a) category will require the branch office of the foreign reinsurer to maintain a minimum retention of 50% of the Indian reinsurance business it writes. Please note that Lloyd's India service companies fall under 8(a) of the IRDAI (Lloyd's India) Regulations, 2016 which is equivalent to Regulation 4 (a) and places Lloyd's in this same category.

		<p>•A certificate of registration obtained under the Regulation 4 (b) category will require the branch office of the foreign reinsurer to maintain a minimum retention of 30% of the Indian reinsurance business it writes.</p>

At the same time, there is nothing in the law that indicates that insurance must be purchased from locally authorised insurers, with the exception of the compulsory classes. This is generally interpreted to mean that insurers can issue policies from abroad if approached by a buyer and/or an intermediary. The regulator of the relevant island would intervene only if the unlicensed insurer were actively soliciting business within its jurisdiction, for example, by advertising or establishing an office.</p> <p>Insurers involved in non-admitted placements for commercial insurance are tolerated. An island's supervisor would only intervene if the unlicensed insurer were actively soliciting business within its jurisdiction, for example by advertising or establishing an office. Insurers are not required to warn buyers that they are not subject to local supervision.</p>	<p>Treaty programmes have to be submitted annually for review by the regulator. Other than this there are no regulations which restrict local companies' freedom to reinsure at home or abroad - there are no compulsory cessions, maximum or minimum retention levels, withholding taxes, supervisory approval of reinsurance security or specific financial rating for reinsurers.</p> <p>Non-admitted</p> <p>The insurance supervisors do not put any constraints on the reinsurances placed by companies under their supervision but they do possess the right to question the use of any reinsurer should they so wish. If specific concerns are raised over a reinsurance arrangement, the supervisor may conduct an investigation and take action to ensure that the company puts in place an alternative arrangement. It is understood that insurers may take credit for accounting and solvency purposes in respect of reinsurance.</p>

<p>United States</p>	<p>LMIE is an eligible surplus lines insurer in all US states.</p>	<p>An insurance company is free to reinsure its liabilities with any reinsurer, domestic, foreign or alien.</p> <p>Germany, Bermuda, Switzerland, UK, Japan, France and Ireland have been accepted and approved as qualified jurisdictions for reduced reinsurance</p>

collateral requirements by the NAIC, under its Credit for Reinsurance Model Law.

LMIE as a non-admitted (re)insurer is not prohibited from writing reinsurance in the US however, in order to write it, **collateral, equal to 100% of its gross estimated reinsurance liabilities and usually based on claims reserves, would have to be posted, either per risk or per programme.**

Update 01/05/2025:

Liberty Mutual Insurance Europe SE (“LMIE”) based in Luxemburg, was first approved as a reciprocal reinsurer in Massachusetts on November 17, 2023 (its lead state) and was subsequently approved in Alaska, Arizona, Arkansas, California, Colorado, Connecticut, D.C., Delaware, Florida, Georgia, Hawaii, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, Virginia, West Virginia and Wyoming. This allows LMIE to write reinsurance business in the United States without the requirement to post collateral, via a passporting arrangement and related applications with non-lead states.

LMIE’s status is not retroactive. All business incepted before the effective approval dates of each of its approved states will continue to require LMIE to post sufficient collateral and LMIE will maintain its proportionate share as required for cedants to take statutory credit for reinsurance. LMIE is required to continuously renew its reciprocal status with its selected jurisdictions each year in order to maintain its status as a reciprocal reinsurer. If a cedant is domiciled in a state where LMIE has not obtained approval as a reciprocal reinsurer, LMIE would be required to continue to post collateral or otherwise satisfy other means under applicable state law for the cedant to take statutory credit for reinsurance.

Note: Non-U.S. reinsurers based in a “Reciprocal Jurisdiction” which includes the E.U. (which is subject to an in-force Covered Agreement with the U.S.) are deemed appropriate jurisdictions for the National Association of Insurance Commissioners as well as all U.S. jurisdictions to accept for

		reciprocal reinsurer designation. Accordingly, reciprocal reinsurers are not required to prospectively post collateral for their reinsurance business in the U.S., subject to specific standards under applicable laws and regulations, including but not limited to inclusion of certain contractual terms in the reinsurance contract.
