Delivering shared success

As a mutual company, we focus not on shareholders and stock markets, but on our policyholders and partners. We take time to get to know your business and what you need from your insurance solution.

Our underwriting involves a thorough analysis of your risks, backed by a deep understanding of your industry, while our integrated underwriting, claims and risk management offers you a creative risk-transfer solution.

Solutions for your most complex risks

We offer a comprehensive range of products to protect shipping-related businesses against physical loss or damage to third parties, or injury to crew.

Liberty's experienced team works with global brokers, offering coverage to a range of clients from private vessels to large multinational operations.

Our specialist knowledge of this varied and complex market helps to guide our clients through all of the options available when considering vessel-based or on-shore risk management solutions.
