

# Renewable Energy

Renewable Energy is now the fastest growing form of electricity generation outpacing new installations of both fossil fuel and nuclear power capacity combined. We recognise the significant impact this transition is having on the energy sector and our clients.\*

Our experienced team provide market-leading insurance products for the growing renewable energy industry worldwide, with a focus on Europe, the Middle East and Africa.

## Solutions for your most complex risks

We offer coverages for the owners and operators of a wide range of renewable energy businesses in the following sectors; Concentrated Solar Power (CSP), Solar PV, Onshore Wind and Battery Energy Storage Systems (BESS).

Our underwriting involves a thorough analysis of your risks, backed by a deep understanding of your industry, while our integrated underwriting, claims and risk management offers you a creative risk-transfer solution.

We tailor our covers to suit your needs, providing an integrated cross-class package policy from project commencement through to the operational phase. Capacity is offered on either a lead basis or following other recognised leading market practitioners.

Our products cover:

- Construction/Erection All Risks (EAR) and Liability covers (TPL), plus Delay in Start-up
- Operational 'All Risks' Property Damage, Machinery Breakdown and Business Interruption and Liability covers
- Marine Cargo including (DSU)/Advance Loss of Profit (ALOP).

Class of business	Line size
Construction	USD 150m (on EML)
Operational	USD 150m (on limit)
Project Cargo and Delay in Start-up	USD 100m capacity

## Target Markets

- Utility scale operations (utility or investor owned)
- Experienced developers with proven business models
- Small operators with installed capacity over 50MW

## Our unique perspective on solar power

We are a prominent solar power insurer with particularly extensive experience in the CSP sector across Europe, the Middle East and Africa. Through the expertise of our engineering team who have a background in design and construction of solar facilities, we have developed a unique understanding of industry and technological issues.

## Risk Engineering

Our risk engineering approach is fundamental to our underwriting strategy and the development of long-term relationships with clients. Together, our underwriters and our in-house risk engineers work with clients to identify exposures, assess risk and provide information on a wide range of loss prevention and control issues.

Our risk services include:

- Risk Engineering surveys and reviews
- Marine Warranty inspections
- Loss Control seminars for Solar projects.

Integrating our underwriting and risk engineering teams allows us to provide our clients with a holistic insurance solution.

## Claims confidence

Aligned with the Liberty Claims Charter, our London-based team has high levels of local settlement authority, supported by a global network of technical capability – designed to give you direct access to decision-makers and the benefit of experience anywhere in the world.

Recognised as a market leader, our strong technical expertise and the strength of our broker partnerships ensure we're always focused on handling your claim as quickly as possible.

Our claims team has long been a key factor in choice of insurer, and our outstanding reputation has enabled us to lead the market through some of its most complex claims.

## With you for the long term

Being a mutual insurance company means we're consistent and here for the long term. Our experienced teams are resourceful, responsive, and empowered to make decisions quickly. You'll benefit from our technical underwriting capabilities, the strength of our relationships with our broker partners, and our unique approach to claims service.

Because what's good for you, is good for us.

## Unlocking opportunities

We're dedicated to developing products and solutions for our clients, whether it's a variety of specialist coverages or guidance on emerging exposures.

Talk to us about the trends we're seeing in your industry and the products we offer to protect your business:

- Marine Cargo
- Terrorism
- Cyber
- Environmental Liability
