Safeguarding

Making vulnerable lives safer

Liberty Safeguarding is an innovative insurance and risk-management proposition for organisations that provide services to the most vulnerable in our society.

We recognise that the insurance industry has a proactive role to play in the safeguarding of children and vulnerable adults. That's why we're delighted to have consulted with the NSPCC, a leading charity preventing abuse and helping those affected to recover.

As a mutual company, we focus not on shareholders and stock markets, but on our policyholders and partners. We take time to get to know your business and what you need from your insurance solution.

Our underwriting involves a thorough analysis of your risks, backed by a deep understanding of your industry, while our integrated underwriting, claims and risk management offers you a creative risk-transfer solution.

Solutions for your most complex risks

We blend tailored insurance coverage with a suite of risk-management tools, supporting you to strengthen your safeguarding procedures while promoting best practice. This approach enables us to take a more progressive view on abuse coverage, ensuring that you're protected for the long term with a person-centred solution.
