

Casualty Binders Worldwide

Delivering shared success

As a mutual insurance company, we focus not on shareholders and stock markets, but on our policyholders and partners. We take time to get to know your business and what you need in an insurance solution.

Our underwriting involves a thorough analysis of your risks, backed by a deep understanding of your industry, while our integrated underwriting, claims and risk management offers you a creative risk-transfer solution.

Solutions for your most complex risks

As a market leader in the Casualty delegated authority sector, we offer standard, bespoke and packaged liability products to our chosen coverholder partners across the globe. Our core underwriting strategy focuses on both affinity and commercial business, written through dedicated coverholders with a proven track record in risk management combined with strong underwriting results.

We write business across a wide spectrum of industries and clients, including commercial, industrial and manufacturing. Our general/public liability policies are issued on an “occurrence” basis, providing protection for losses that happen during the period of insurance. We tailor our covers to each client’s needs and provide a flexible approach to underwriting to suit the industry sector. We can also develop bespoke policies that are tailored to the client’s individual requirements.
