Global Risk Solutions

Liberty Mutual's Global Risk Solutions (GRS) division serves the insurance and risk management needs of businesses across the globe through three business units: Liberty Mutual Surety, GRS North America and Liberty Specialty Markets.

Why choose Liberty Specialty Markets

As the international commercial, specialty and reinsurance business of Liberty Mutual Insurance Group, we're proud of our mutual heritage. It means we're guided by doing what's right for our clients.

Because what's good for you, is good for us.

Reasons to partner with us

Our structural stability offers continuity and a long-term view

At its core, our business rests on us being able to honour our promises at any point in the future. Our clients want to know that if they have a claim, we will be around to pay it.

As a mutual, we are structured to be there when our clients need us.

Our business is backed by the strength of more than 45,000 employees in over 800 offices worldwide. This, along with our financial security, allows us to tap into the scale and resource required to remain competitive in our industry. So you can be sure that we're here for the long-term.

We develop sustainable relationships to deliver reliable outcomes

We invest in our people, giving them the freedom to develop their unique talents and build supportive and trusted relationships. Because of our long-term view, we pride ourselves on developing a deep understanding of your business and risks.

We offer straightforward access to decision-makers, and bring people together quickly and easily to find the right solution. Our underwriting, claims and risk professionals have high levels of authority and are empowered to respond quickly to your needs.

We make time for what matters most

We are entirely focused on the needs of our policyholders and partners. Free from the distractions that can affect listed companies, such as short-term decision making, the demands of activist investors and complex management structures, we dedicate our time to serving the needs of our clients.

Helping people in adversity is part of our heritage, from providing Workers' Compensation over 100 years ago. These days we're bringing that same focus to solving problems for our clients, with fresh thinking and insurance products that are fit for the future.

Our claims service

Our integrated service is built on a simple principle: we aim to deliver superior value by supporting clients at every stage of the relationship.

To make that happen we work together as one integrated team, engaging early to help shape policies and ensure shared understanding. We act decisively when and where it matters, giving local specialists authority to act in their clients' interest. We pay out fairly and promptly, accessing formidable global resources.

As a result, our clients can feel confident, involved and protected - knowing that we are their partners, providing continuity and assurance which reduces risk in an unpredictable world.

Claims+

The Claims+ offer has been designed to enrich the Liberty service and add value to the experience - giving clients greater confidence and additional insight into risk.

Claims specialists in the client engagement team offer a bespoke package of Claims+ tools and services, based on their intimate understanding of the client's circumstances and informed by their market expertise.
