A Sustainable Future

At Liberty Specialty Markets (LSM), our purpose is to help people embrace today and confidently pursue tomorrow. To fulfil this purpose, we are committed to sustainability and careful consideration of ESG issues.

Insurance can be a force for good and we have a role in supporting the transition towards a low-carbon future. LSM is supporting Climate Transition Pathways, currently working to provide a number of benefits to companies with accredited transition plans, in addition to continued access to insurance capacity. For instance, LSM is exploring how to meet the challenge of the transition with longer-term and more expansive solutions.

With over a century of insurance experience, we've learned a thing or two about risk. We're dedicated to developing products and solutions for our clients, whether it's a variety of specialist coverages, a customised wording or guidance on emerging exposures.
